Muhlenberg County
is rich in coal, iron, timber, potter's clay, etc., and the most inviting field in Kentucky for investment of capital and pluck.

VOL. XIV. NO. 8.

GREENVILLE, KY., THURSDAY, MARCH 28, 1912.

50c. PER YEAR, IN ADVANCE

MAKESHIFTS FOR THE COOK

Delicious Purée Made From Canned Tomato Soup—Use for Some Leftovers.

Canned tomato soup can masquerade as a delicious purée if it is mixed with half its bulk of cream or milk. Season highly and add the cream before the soup is heated, as it is less likely to curdle. For variety, barley or cut-up spaghetti can be added.

The mixture that is left in the bottom of the casserole after the meat has been removed can be utilized for another meal. Add about half the quantity of water, cut up dice of potatoes, and make dough balls, stewing the mixture until the potatoes are tender.

When making apple float try roasting the apples instead of stewing them. The pulp is removed from the skins and mixed with the whites of eggs.

Left-over spaghetti or macaroni is nice cooked in a baking dish with a cream sauce and shredded green and red peppers cut over the top. Sometimes cheese is added to the mixture, again bread crumbs.

To keep cut cake moist place it in a tin with a good sound apple. It keeps apple with a good one if it dries.

Before tacking down linoleum let it lie in place and be walked on for a few days. This will make it lie perfectly smooth.

If you want to paper a wall that has been whitewashed, brush over every part with equal quantities of vinegar and water, or the paper will not stick.

If the cream seems too thin to whip place the dish containing it in another dish of cold water, leaving it there until it is well chilled. Then put it into a can of hot water. It will whip without difficulty.

If a vegetable or cereal burns, plunge the vessel containing the burned mass into cold water and allow it to remain for a few minutes before pouring the contents into another pan. This will do away almost entirely with the burned taste which is so disagreeable.

Should a cake be burnt on the outside, scrape the black parts off very carefully and brush over with beaten white of egg, then dust with powdered sugar. Now put the cake back in the oven for five minutes, when all signs of burn will have disappeared.

Helpful Hints.

Cut hams may be kept from molding if the cut end is wet with vinegar each time after cutting. Vinegar will also keep beef fresh for a time when you happen to be without ice temporarily.

Holding tomatoes over the gas flame will cause the skin to burst and come off easier than when scalded, and the tomato will be less mushy than when scalded.

When canning it is well to know that all preservatives are dangerous. Anything that will overcome the gases tending to spoil canned fruit is liable to prevent their digestion and so is not advisable.

Cold water is preferable to warm for scrubbing floors because it does not sink into the wood and so dries quickly.

Sponges should be washed free of soapuds each time they are used and hung up to dry. As often as possible scald them in soda water and hang them in the sunshine.

Furniture Polish Recipe.

Shave two ounces of beeswax, also half an ounce of white wax. Put in a quart jug and pour over one gill of the best turpentine. Then in another vessel cut up half an ounce of castile soap. Add it to one gill of cold water. Stir each and leave to stand. In two days both should be thoroughly dissolved. Then mix together and stir in two tablespoonfuls of vinegar, also two of ammonia. Bottle and cork tightly. Every woman would save herself much elbow work if she slightly washed over the pieces of furniture before applying a polish, in tepid water, dried at once, of course. This is an immense time saver.

Honey Love Cakes.

Put two cupfuls of honey and three-quarters of a pound of sugar into a saucepan and bring slowly to boiling point. All a quarter of a pound of chopped almonds with the skins left on. Simmer five minutes, remove from the fire, cool slightly, add half a pound of candied peel cut into small pieces, half a teaspoonful of baking soda, half a teaspoonful of ground cloves, one teaspoonful of ground cinnamon, half of a grated nutmeg, the grated rind of a lemon and enough flour to make a stiff paste. Roll out, cut into rounds with a cutter, lay on buttered tin and bake till ready in a moderate oven.

Damage by Grease.

Many an overflow is caused by grease. There is no better way to keep the pipes of a sink in good condition than to let the hot water faucet run for five minutes after dishwashing. Though your water is on a meter, this is cheaper than overflowing or clogged drains.

Keep an eye on the washers. If you are on a water meter. A constant drip is hard on the pocket book, even if the nerves can stand it.

NOVEL TOMATO SALAD

SOME SUGGESTIONS THE HOUSEWIFE WILL APPRECIATE.

Ice Coldness, Careful Skinning and Marinating Are Essentials of Good Salad—Some Recipes Worth One's Consideration.

The essentials of a good tomato salad are ice coldness, careful skinning, and marinating. Prepare early enough in the day to keep in the refrigerator for three hours before using, and for half an hour at the end soak in a thick emulsion of French dressing, though mayonnaise is to be used on the salad proper.

If a tomato skins easily do not put it in hot water. With some varieties this will be possible, especially if the tomato be very cold and a sharp knife is used. The usual custom is to pour boiling water over the tomatoes, let stand a half minute, then peel with blunt silver knife and put at once on the ice.

Tomatoes take the flavor of their dressing so much better when sliced than many salads are prepared in sections, cut in lengthwise pieces, four or six to a tomato, according to size. Serve on a nest of lettuce or arrange as a border around shredded lettuce with a narrow outer border of white lettuce hearts. Dot with mayonnaise.

The whole tomato is so hard to eat that it is more often used as a cup than any other way. The fillings are endless and various odds and ends of vegetables can be utilized.

Especially good is one of cold peas highly seasoned with plenty of butter and mixed with a few capers. Cold corn dressed with plenty of butter, cayenne, salt, and a little whipped cream makes a novel filling and served with rich mayonnaise is excellent.

Cold spaghetti cut into small pieces and dressed with a highly spiced tomato sauce looks pretty and tastes good in a tomato cup, or the paste can be dressed with cream sauce and mixed with grated parmesan and chopped pimientos.

Shrimps and shredded green peppers make an artistic filling, or green peppers and shredded celery. Equally effective are asparagus tips and tiny pearl onions.

Remnants of chicken can be made into a nice salad filling by running it through a chopper, then season highly, and mix to a paste as for sandwich filling with a little whipped cream. Dot the top with anchovies or shredded green peppers.

Mixed ham mixed with mayonnaise is as good in tomato cups as it is on croutons or sandwiches. If hard-boiled egg—yolk—is run through a vegetable press and dotted over the top of the cup it makes a pretty coloring.

Another good filling consists of tiny hutton onions, boiled until soft, made icy cold and mixed with mayonnaise. This is far less painful to the bystander than the shredded onion so often used.

A novel salad is a small tomato, cut almost through in lengthwise sections, with minced green peeping from the cuts. The tomato is only cut enough so it will hold together and the green is marinated in French dressing. The tomato is then set on a round of canned pineapple, which rests on a tender lettuce leaf, the whole being garnished with mayonnaise.

A delicious salad is made from sections of tomato marinated in French dressing, served on lettuce leaves and sprinkled thickly with very crisp bacon, cut into small shreds. Mayonnaise can be passed.

Carrots Flemish Style.

Wash and scrape a bunch of young carrots and cut each one into quarters. Cook in salted boiling water for ten minutes and then drain. Melt an ounce of butter in a saucepan, put in the carrots, sprinkle them with flour, salt and pepper and a pinch of sugar and toss them about for five minutes. Stir in a half pint of meat stock and let simmer on the back of the stove for 15 minutes, occasionally stirring. As soon as the carrots are cooked draw them away from the fire until they have cooled somewhat. Beat the yolks of two eggs into half a cupful of cream or rich milk. Stir this into the carrots and cook gently until the liquor thickens, but do not allow to boil. Serve in a hot dish and sprinkle over with minced parsley.

Care of House Paint.

Few housewives have the least idea what a little care of the outdoor house paint, such as window sashes, front door and even railings, will do to preserve its beauty and length of life. The simplest plan is to wash this paint at intervals with tepid water to which a little paraffin has been added, with a soft rag. Then to apply a really good, preferably home-made furniture polish, and rub off in the usual way. This quite prevents blistering. Paint that is far gone could be washed in oxalic acid and water, but this is a strenuous remedy and only suitable when a repainting is to be the next move. Below I give a recipe for a polish suitable for both furniture and paint.

Mocha Layer Cake.

The yolks of five eggs, one cupful of powdered sugar, two tablespoonfuls of mocha essence, two tablespoonfuls of strong hot coffee, one cupful of flour, and one teaspoonful of baking powder. Add the beaten whites of the eggs and bake in three layers for fifteen or twenty minutes. Fill with whipped cream.

What Are You Going To Do This Year

by way of making your business successful and your domestic life full of pleasure, if you are not supplied with telephone service of the Cumberland Telephone & Telegraph Company? Everyone should have a telephone. You are connected with all outside important points in local connections with all residences and business houses. For any information call manager, Cumberland Telephone & Telegraph Co. Incorporated.

Roark's Store Nelson

Furniture, Moldings, Wall Paper

We carry on our floors and in our warehouses the largest variety of Furniture in Muhlenberg.

If we do not have what you want, we will get it for you. We have factory connections with makers of the finest goods in the country, and through "Our Special Order Department" can supply any exclusive articles at less prices than city stores or mail order houses.

Our Picture and Room Molding-stocks are always complete.

Wallpaper is now a staple article of merchandise, being used all the year 'round. And we always have full selections, prices 5 cents and up per roll.

Engraving - - - Engraving

Our Engraving Machine is the only one in this part of Kentucky, and we are exclusively prepared to supply individual Name Plates, which we furnish on all outfits without extra cost.

Address all communications and make all remittances payable to **RECORD PRESS,** Greenville, Ky.

THURSDAY, MARCH 28, 1912.

Entered at the Greenville, Ky., postoffice as second-class matter.

It is going to cost the public more to maintain all those offshoots of the Standard Oil Company, for their competition seems to consist mainly in each trying to declare the largest dividend.

The agency of mosquitoes and fleas as carriers of yellow fever and plague has been very thoroughly established. Late investigations serve to show quite conclusively that bedbugs are chiefly responsible for the propagation of kala-azar, the dreadful black fever of India. As a consequence of this discovery bug hunting has become an active industry in some parts of India, even going so far as to lead to the burning of bug infested huts as a means of certain extermination.

When the cloudy days come we sit disconsolate and stroke our heads and bemoan the hard times. But we really don't know anything about hard times. In China, where six millions of people are starving, and in Russia, where over thirty millions are suffering the pangs of famine—to say nothing of otherwise fairly prosperous countries, where foreign wars or internal disorders make a hell upon earth—there is some cause for dolor, but not in the United States. Here we sit on our haunches and mourn because we are obliged to put some limit on our extravagance.

It consumptives can be treated successfully at a dispensary, obviating the necessity of leaving their work and their families to go to a sanitarium, the fact is of the greatest importance. The Medical Record publishes an account by Dr. Russell of his work in New York in this direction, and he seems to have effected a larger percentage of cures than can be credited to the sanitarium. He depends entirely on the feeding of the patients, who must come to his dispensary twice every day, and his hours are arranged to accommodate men who are earning their livings. This seems to put the possibility of health within the reach of victims of tuberculosis who could not go to a sanitarium without becoming objects of charity and leaving their families to endure like humiliation.

The census returns show that in the ten years included up to 1909 the output of our factories was doubled. There was in our meat-packing industry a total product amounting in value to \$1,400,000,000 a year. Foundry work amounts to a little over \$200,000,000 less. Lumber runs up to \$1,156,000,000. Iron and steel we make up to the amount of \$985,000,000 a year. Flour products come next with \$883,000,000. Our printing foots up \$787,000,000. This includes books, papers and all kinds of printing and publishing. Our cotton goods come to \$628,000,000. Of men's clothing we make \$568,000,000 worth. Of boots and shoes \$512,000,000, and so on. Over six million persons were engaged in manufacturing establishments, an increase of 21 per cent. in five years. Corporations do 79 per cent. of the manufacturing.

It is gratifying to learn from the Census Bureau that illiteracy is on the decrease in this country, the percentage of illiterates having fallen in the decade 1900-1910 from 10.7 to 7.77 per cent. This is something of a gain, but the percentage is still appallingly high as compared with the most advanced European countries. In Germany, for instance, the percentage of illiterates is so small that it is practically negligible. Much of the

labor trouble of the present day comes from foreign born illiterates. The men who stuck in Lawrence were largely of this class, and made pitifully small wages because their low intelligence made it impossible for them to work upon the machines at which the more skillful native employees made a good living wage. Among native whites in this country the percentage of illiterates is 3, while among the foreign born it is 12.8. Only universal education can remove this standing menace to the nation.

In granting a patent the United States do not guarantee profits. They give the inventor a monopoly of his invention, but if he cannot make money out of it that is his loss, and it seems rather farfetched to give him a monopoly of some article not invented by him, but used in connection with his invention. The Justices who decided the mimeograph case asked whether an inventor might not be allowed to make his profit from the accessories instead of from the invention itself, if he chose to. But under the opinion of the Court he might do both. The Shoe Machinery Company may charge a rental for a machine amounting to 100 or 200 per cent. of its value, and then require the lessee to use only its wire, which is sold at a profit of 400 or 500 per cent. It is unreasonable to object that this sort of thing is a little excessive. The patentee might very properly be held to the letter of his bond.

It is worthy of note that the transcontinental railroads have no fear of losing business through the opening of the Panama Canal. Indeed they expect it to increase their traffic by building up the Pacific Coast. The Union Pacific Railroad is now engaged in double-tracking its line from Omaha to San Francisco, and the Chicago, Milwaukee & St. Paul road is about to spend \$26,000,000 in grade reductions, double-tracking, new equipment and the improvement of terminal facilities, with a view to profiting by the expected increase of traffic when the canal is opened in 1915. This view is based upon a careful study of the completion of the new water route, and seems to be well justified. "I believe," says Judge Lovett, chairman of the Union and Pacific Railroads, "that the opening of the Panama Canal will take a little business away from the transcontinental lines handled at the Atlantic coast, but I think this will be fully made up by the increased business on the Pacific Coast that will result from the canal." No one need bother about the effect of the canal's competition upon the railroads. They are amply able to take care of themselves. A more interesting problem is to find out where the canal is to secure sufficient traffic to enable it to meet its heavy fixed charges.

HOARD'S DAIRYMAN.

A Journal Devoted Exclusively to Dairying and Dairy Stock Interests.

Hoard's Dairyman is the biggest and most practical dairy farm paper published in the United States. Hoard's Dairyman shows a feeling interest and practical knowledge of all things about the farm.

Its editors are daily in the farm atmosphere and confronted with the same questions to solve that are before the farmer. Hoard's Dairyman talks good, hard farm sense about soils and crops and how to best handle them, talks over the good and bad points of cows; their breeding and products. Every conceivable question is considered that will interest the farmer who really wants to make more money and do better with his farm. It is intensely practical.

Sample copies cheerfully sent upon request, better still—subscribe now. The subscription price per year is \$1.00. Send your order now. Address—Hoard's Dairyman, Fort Atkinson, Wis.

Iowa "Hornets" Wish to Meet Old Foes.

The ninth reunion of the "Iowa Hornets' Nest Brigade" will be held on the battle-field of Shiloh at Pittsburg Landing, Tenn., April 6 and 7, 1912. We extend to the Courier-Journal a cordial invitation to meet with us on that occasion. And we extend a most cordial invitation to all the old Confederate veterans who fought so gallantly and heroically on Shiloh's bloody field a half century ago. We want all the survivors of that battle, and especially those who were engaged in those terrific assaults on the "Hornets' Nest."

We want you to come and bring your families and we will give you the warmest reception we know how to give to make your visit pleasant. Would the Courier-Journal please have your southern exchanges as far as possible to publish this invitation? Yours respectfully,

J. B. CARMAN,
Secy. Seventh Iowa Infantry.
1148 West Twenty fourth street,
Des Moines, Ia.

Conference for Education in the South.

The next Conference for Education in the South will be held at Nashville, Tenn., April 3, 4 and 5. The railroads have granted a rate of one and one half fare plus fifty cents. Tickets will be on sale from March 30, to April 5 inclusive, and will be good returning to April 20. This will be one of the greatest educational gatherings ever held in this country. Speakers of international reputations will be on the program. A large delegation should attend from Kentucky.

T. J. COATES,
State supervisor of Rural schools,
Frankfort, Ky.

AGRICULTURAL EXTENSION

The Farm Special Train

The Agricultural Special train which is being prepared by the College of Agriculture of the State University and the State Department of Agriculture at Frankfort, to be run over the various roads of Kentucky, will be one of the best educational opportunities that has ever been offered to the people of Kentucky. Much time and money has been spent in the effort to make this train a "university on wheels", to be taken to the very doors of the people.

The specialists from the College will treat the various lines of agriculture that are to be presented and their work will be supplemented by the services of some of the most widely known authorities in the United States.

Special attention should be called to the women's work, which will be in charge of some of the best known authorities in the country on home economics and its branches. Literature on the topics treated will be given away to those interested in any particular subject.

The day and hour at which this train will arrive at your station is printed in this newspaper, special notice having been sent from headquarters.

T. R. BRYANT,
Superintendent Extension Division, Kentucky Agricultural Experiment Station.

This train will arrive at Greenville 3:30 p. m. April 10, and remain two hours.

THE LINE OF THE SPINE

shown above is the curved line which truthfully presents to your eye the condition of your spine if you use a sewing machine.

The reason for this is the family sewing machine as ordinarily constructed, is so defective. You cannot sit straight in your chair while operating your machine—try it, sit straight and square as you should, and see if you can sew on your machine. You can't. The needle is 4 1/2 inches from the center where it ought to be. To follow your work you have to twist your body to the left. This twist calls for a wrench and strain on all the delicate chords and ligaments, affecting stomach, liver, lungs, heart, and all the nerves, resulting in **SIDE NEEDLE SPINE**.

If it were possible for a growing child to operate an ordinary sewing machine, it would be injured for life. The soft cartilage of its spine would twist and warp, its vital organs would be injured to such an extent as to produce nervous disorders.

In schools, as you know, desks and chairs are specially constructed to avoid spinal curvature.

In factories where sewing machines are used, the work is always directly central with the operator, otherwise they could not stand the strain of the twist of the body and continue to work.

THE STANDARD CENTRAL NEEDLE machine is a new type of family sewing machine designed as a health saver and promoter of doctors' bills.

In this machine the needle is central with the work—directly over the center of the treadle. To use it calls for no twist of the spine, it causes no strain on the internal organs and consequent torture of the nerves.

With THE STANDARD CENTRAL NEEDLE machine a woman is safe in using it all day and every day, without tire or strain. Compare the two pictures—positions taken from life—and decide which you will have. **THE SIDE NEEDLE SPINE or THE CENTRAL NEEDLE SPINE?**

We have printed a valuable book, "A STITCH IN THE SPINE" which is yours FREE for the asking—and every intelligent woman will want it and will thank us for bringing it to her attention.

It goes into the subject of sewing machines, and contains a full and complete description of the Standard Central Needle machine, and how easy it is to use. If you value your health and the health of your children—send for a copy or check—no obligation. It is FREE. A postal will bring it to you. Write to **W. S. SAGE & SONS**, Louisville, Ky.

Fresh Green Vegetables In Perfect Condition Ready Every Day.

If you have ever been in our store you know how we keep our green vegetables so fresh and good all the time. It's our mist machine.

We never have any wilted stock—the last is as good as the first. It's all first choice.

Right now, every day we are getting fine lots of radishes, beets, head and leaf lettuce, kale, beans and celery, and by the aid of our mist machine these are kept in perfect condition constantly.

Aside from these green vegetables we also have squash, tomatoes and new potatoes.

These are all southern grown and of excellent quality. Prices are lower than you might think. Come and see, or ring us up.

You will get the Highest Market Price.

Respectfully,
R. E. & W. D. COOPER, PROPRIETORS.

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. A clean stomach, clean bowels, clean blood, a clean liver, and a clean, healthy tissue. The man who is clean in this way will look it and set it. He will work with energy and think clean, clear, healthy thoughts. He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery
prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

The Best Tenants Demand Electric Light

Any landlord can improve his property by wiring his houses for electric light. Electrically lighted houses are always more rentable. New Edison Mazda Lamps give twice as much light as ordinary electric lamps and are strong enough for all practical purposes when given ordinary care in handling. Try them to-day.

Local Mention.

The bad weather brought a good crowd here to court Monday.

See Coombs & Co. before you sell your beef hides. 0 27

Make your arrangements to be in town April 10 and meet that special farmers' train at the depot.

Give us your order for fresh meat. Quick delivery. Coombs & Co.

Mr. and Mrs. Carlisle Kirkpatrick and child are in Drakesboro on a short visit to the family of Mr. J. C. Haden.

See the finest line of baby cabs and carriages ever shown in town at Roark's.

Mrs. Henry Thibault, of Scotts, Ark., arrived the latter part of the week, and is with her father, Judge J. C. Jonson.

Horsemen were here in abundance last Monday. In fact, horseback was about the only way people could come, on account of the wretched condition of the roads.

Drop in at Roark's and hear the Victrola play the newest selections in songs, band and orchestra numbers, speeches, etc.

Much stock was offered for sale here Monday, but on account of the lateness of the season, there was little demand, and prices ruled low. Few sales were made on this account.

Read in this issue the Notice of Sale of the Dovey Coal Company, Thursday, April 18th.

Sunday was a typical March day, wild, blustery, with rain, snow and sleet. On account of the extremely disagreeable conditions, attendance at all the church services was lessened.

Sassafras bean poles, 1 cent each, delivered. Apply to Chester Curd.

A dose like this we have had for three months should never be forgotten by those who have had occasion to use the roads, or by those who have wanted some hauling done, but could not get it.

Get Collins calendars at this office. Greatest showings on the market.

Among the old veterans who are arranging to go to Shiloh are J. N. Durall, H. C. McCracken, Ned Johnson, R. H. Lyon, John Coombs, of this place, R. J. Williams, of White Plains and Mike Hanna, of Earlington.

Powderly.

Mr. Lucien Keys is on the sick list.

Mr. Lee Longest was over from Browder Sunday.

Mrs. Jane Miller from Central City visited her daughters Mrs. Mercer and Mrs. Bradley last week.

Mrs. Nora Green of the Nebo neighborhood, is visiting friends and relatives here this week.

Mr. and Mrs. John Martin from Greenville attended service at the Christian church Sunday.

Mrs. Ethel Mercer and Miss Beula Mercer were in Greenville Monday.

The infant son of Mr. and Mrs. Ura Helmsley is improving slowly.

Elder H. C. Ford preached an excellent sermon at the Christian church Sunday morning, and in the afternoon conducted an impressive communion service at the home of Mrs. M. E. Oldham in the presence of a number of friends, all of whom seemed deeply affected and strengthened in their onward march through life's desert.

Colored Bishop Here Today.

Bishop J. S. Caldwell, D. D., of Philadelphia, will arrive in Greenville today, on his Episcopal visit, and will preach at the A. M. E. Z. church tonight at 7:30. The Bishop is well known here, where he has made occasional visits, and presided at the conference held here four years ago. At the service tonight a special invitation is extended to the white people, and reservations will be made for them.

C. N. PAYNE, Pastor.

Victor machines, records and needles at Roark's.

There is not a man in the county now who is not in favor of good roads, and if they will not soon forget and refuse to pay, it is likely that this season there may be a start made toward building permanent highways.

Fish Wednesday and Saturday at J. E. Coombs & Co.

The offer of the I. C. to build that stretch of model road near Depoy has caused the widest comment and enthusiasm. There is more good roads talk in this county right now than ever before in its history, and from all this it is hoped there may be some tangible results.

Roark has the latest and most practical thing in curtain rods, and will be glad for you to call and see the display.

Mary Lee Williams, for 20 years an inmate at the poor farm, died there at 7 o'clock last Thursday morning, from a complication of ailments. She was 69 years old, and a native of this county. Interment was made at Nebo graveyard at 2 o'clock Friday afternoon.

Have your clothes pressed: Miss Arnold will do the work in best manner.

Mr. Greene Bracken, a well known man, died at his home near Beech Creek last Friday afternoon. On Sunday he was paralyzed, and pneumonia followed. He is survived by his wife and two daughters. Burial was in the Haden graveyard, near Drakesboro, last Saturday afternoon.

About 100 new Victor records were received by Roark this week.

Drop in and hear the latest in popular and the most enduring of the standard productions, rendered by the world's best artists.

Property for Sale.

On account of my serious illness, I desire to sell my property on Main-cross street. Will sell home and contents, grounds, chickens, store room and stock. Sale will be made as a whole or separately, to suit purchasers.

Mrs. M. E. Martin.

Sometimes a public man is so little known or poorly drawn that the cartoonist in picturing the person must label him with his true name to make the point. Spring as it came in should have been so tagged that the wayfaring man might have no trouble in distinguishing it from winter.

To our customers: For your convenience we will be open Sunday mornings until 9 o'clock.

J. E. COOMBS & CO.

Notice to File Claims.

All persons having claims against the estate of W. S. Fox, deceased, are hereby notified to present same to me at Paradise, Ky., properly proven, on or before April 1, 1912, or they will be forever barred.

This Feb. 21, 1912.

Mrs. M. D. Fox, Adm'r. W. S. Fox, Dec'd.

Give your job printing orders to THE RECORD.

Baby buggies at Roark's.

Y. M. C. A. NOTES.

The Annual State Convention of the Kentucky Young Men's Christian Association has been announced for April 11 and 12 in Louisville. The nature and purpose of this convention will be of a somewhat different nature from former State Conventions. For the first time it will be self entertaining. It will also be shorter by two days than has been customary. Its main purpose will be to get together accredited members from the Associations of the State.

The fiscal year of the Greenville Association ends next Monday, April 1st. It is desired that all persons indebted to the Association by subscriptions will please arrange to remit them by April 1st, so that our accounts may be paid and the books balanced. Your help in this matter will be greatly appreciated. In next week's paper a report of the year's work will be given.

The Bible Classes will meet next Sunday as usual. The boys' class will study about Gideon. All men, young men and boys are very cordially invited to be present at these classes.

Something to Think About.

Many words won't fill a bushel, but a Fire, Lightning, or Tornado policy with us will fill a want in human happiness that will otherwise remain unsatisfied.

W. D. Blackwell & Bro.

General Insurance, Greenville, Ky. Rogers Bldg. Telephone, 16-3

Rev. Geo. H. Hayes died at his home at Henderson last Sunday, after an illness of only two days. He was 80 years old, and for more than 30 years had been presiding elder in the Methodist church, of which denomination he was a leading minister, having been in the active ministry for more than 50 years. He was well known in this county, and had many warm friends and admirers.

An Old Soldier Ignored.

Louis Crutcher, formerly one of the star pitchers for the Kansas City team of the American Association, has been appointed clerk and stenographer in the office of W. J. Stone, Commissioner of Confederate pensions.

The above item, in last Saturday's Record, came as a surprise to the many friends of Mr. S. J. Landis, of this city, who was an applicant for this clerkship, and had the strongest endorsement of political leaders here and over the state. Mr. Landis is in every way well qualified for this position, and being an old Confederate cavalryman, his appointment should have been made. Crutcher is not known here, and while he may be a competent man, his claims on the party could not equal those of Mr. Landis, who has been a lifelong Democrat.

All kinds fresh and salted meats at J. E. Coombs & Co.

It Makes a Difference as to Who Pays.

One of our citizens who pays a poll tax and a property tax of about an equal amount, has been a chronic kicker for improved streets, sewers, more public fire plugs and arc lights, street sprinkling and everything else which is paid from the public fund to which he contributes so meagerly. He may still howl for all these except streets and sewers, but since the new state law was enacted, he has reversed himself as to these. A man who knew the line of talk that for years had been dispensed by "Taxpayer" interviewed him this week as to new streets, and the answer showed that the kicker had mellowed down, for he said: "The street in front of my home is not used much, and is entirely satisfactory; in fact, it has improved very much the past few weeks."

The sample room of the Old Inn is being overhauled and prepared for occupancy by postmaster Miller and his force.

The present quarters are insufficient, and the new room will be considerably larger, and have the additional advantages of more light and better ventilation, while it will be only a few feet further from Main street than the present location.

Typewriter ribbons, all machines at Roark's

"Her Uncle's Boots," a play, will be given by the Young Ladies' Missionary Society of the Cumberland Presbyterian church Friday night at the Alice theatre, in connection with "A Case in Suspension" recently given to the delight of a large audience. Everyone is invited to attend.

JOHN X. TAYLOR, DRUGGIST,

Greenville, Ky.

New Law on Pavement and Sewer Construction.

Below we publish three sections covering the essential features of the new law providing for street and sewer construction in towns and cities. This offers great relief on a most important matter, as most of our smaller cities could never provide and maintain such necessities from their revenues. Even if bond issues could be voted (a hard thing to do) the amount so available under the provisions of the old law was entirely inadequate. This is a needed and proper solution of the matter, and will afford means of developing every city in the state. For many years this has been the law governing the larger Kentucky cities, only, while in all the northern, eastern and western states, almost, the law for a long while has been similar to our new law:

Section 1. The City Council is hereby authorized and empowered to order any work they may deem necessary to be done upon the sidewalks, curbing, sewer, streets, avenues, highways, and public places of such city. The expenses incurred in making and repairing sidewalks and curbing shall be paid by the owners of the lands, fronting and abutting thereon, each lot or portion of lot being separately assessed for the full value thereof, in proportion to the frontage thereof to the entire length of the whole improvement, not exceeding a square, sufficient to cover the total expense of the work; but the owners of such property shall have the right to make such improvements, if they prefer doing so, instead of paying for the same. The cost and expenses incurred in constructing or re-constructing streets, avenues, highways, sewers and public places shall be paid out of a general fund of the City or by the owners of the land fronting and abutting thereon, as the City Council may in each case determine; or the City Council may order and direct that two-thirds only of said cost and expenses so incurred shall be paid by the owners of the lands fronting and abutting said improvements and the other one-third paid by the city; but the local assessments shall not exceed fifty per centum of the value of the ground after such improvement is made excluding the value of the buildings and other improvements upon the property so improved.

The cost of constructing or re-constructing the inter-section or crossing of streets, avenues and highways shall be at the expense of the city.

Each subdivision or territory bounded on all sides by principal streets shall be deemed a square. When the territory contiguous to any public way is not defined into squares on either or both sides by principal streets, the ordinance providing for the improvement for such public ways shall be the depth on the side or sides not defined in the square fronting said improvement, to be assessed for the cost of making the same, according to the number of square feet owned by the parties, respectively, within the depth set out by ordinance.

Section 2. Whenever the City Council shall determine upon the construction or reconstruction of streets, avenues, highways, sewers and public places at the expense or partial expense of the abutting property, as provided in section one of this Act they shall cause the same to be done as follows:

The ordering of such improvement shall be by ordinance of the City Council, and the contract therefor shall be awarded to the lowest and best bidder after proper advertisement for bids. The City Council shall require the accepted bidder to execute a bond to the city with good and sufficient security to be approved by said Council for the faithful performance of his contract.

Section 3. The original construction or reconstruction of any streets, avenues, highways, alleys, sewers and public places may be made at the exclusive cost of the owners of the lots and parts of lots or lands fronting, or abutting, or bordering upon the proposed improvements to be equally apportioned by the City Council according to the number of front feet owned by them respectively, or in part at the cost of the owners and in part at the cost of the city, upon the petition of a majority of the property owners of lots or parts of lots, or land abutting or bordering upon the

proposed improvement; or the City Council may cause same to be done without such petition upon the vote of four members elect of said Council at a regular meeting thereof.

Night watchman James Tinsley, in charging the fire alarm in police headquarters accidentally turned in a false alarm at 10.30 o'clock Tuesday night, and the response of the wildcat whistle at the water plant soon filled the Street with people.

Aunt Sallie Lile, 86 years old, died at her home at Paceton last Monday morning, from ailments incident to her age, and for some time had been confined to her home. She was a well known woman, and had a wide circle of friends. Burial was in the family graveyard Tuesday afternoon and was largely attended.

Talks to Business Men—No. 5

The successful business man is invariably one who plans far ahead—one who lays out a definite scheme of action and sticks to it to the end.

This is particularly true of advertising which should be carefully planned in advance and not handled in a hap-hazard, "hit or miss" fashion.

Your advertising for the coming year should, by all means, include a calendar for 1913 to be sent to your customers in the holiday season.

This is the ideal time to select your 1913 calendar. We are in the market with a copyrighted exclusive line from one of the foremost calendar houses of the country—a house long noted for the quality of its products. You will do yourself an injustice if you fail to see this extraordinary line.

When will you call?

THE RECORD.

NOTICE

Having bought out Mr. D. U. Poole's interest in the Drug Store, I wish to get the Taylor & Poole accounts closed. Parties indebted to the above firm will please call and settle their accounts.

Respt.,

John X. Taylor.

ROMANCE IN THE HOME

INABILITY TO DETECT IT CAUSE
OF MANY MISERIES.

Domestic Duties Never Appear to Be
More Drudgery When the House-
wife Goes About Them in the
Proper Spirit.

The dullness of domestic life is one of the commonest complaints uttered by a certain type of the modern woman. She chafes at the daily task, the common round. To her it seems that the four walls of her home partake of the character of a prison house and that all the romance, the pleasure, and the interest of life lie outside.

Within she finds only drudgery and sordid conditions. She awakes in the morning with a sigh, contemplating the dreary duties. She seeks her rest at night, bored and weary with the tedium of a day's domestic toil.

She envies the woman who works in the wider world, who mixes with men in the mart, who carves for herself a career, and who is free from the endless irritations and annoyances that beset and vex the woman in the home.

Such thoughts as these increase her discontent. The monotony against which she murmurs grows more grievous. She acquires a chronic querulousness that communicates itself to all who come under her influence. The husband feels it and flies for comfort to his club. The children are conscious of it and seek solace in other scenes. And the plight of the woman becomes more pitiful. She begins to brood. She feels that she lives a wasted life.

She may become sour, narrow, pessimistic, morbid, and nervous; all and each of which will be quickly reflected in her health and appearance, till she becomes the most melancholy influence in an erstwhile happy home.

Inability to detect the romance of domestic life is more often than not the reason why the miserably depleted energy of many married lives that had opened under the most promising auspices.

But what is the romance of domestic life? Where does it lie? Only those who are unconscious of it will ask the question.

Is there not, in the first place, romance in the very name of "family?"

Is it not one of the most profoundly interesting culminations of ages of social evolution? A microcosm of the state, it should possess, in little, all the interest of a state. Whether it be an autocracy, a limited monarchy, or a republic of two, it has foreign relations which require the exercise of the utmost tact. It has or should have an annual budget, which may cause much consternation in certain quarters of the domestic menage. It is concerned with commerce. The quality and quantity of its imports, although figuring under the mundane names of bread and meat and groceries and such like, are of as great importance to it as its foreign trade to the most populace state.

It has traffic—indirect, it is true—with foreign lands. Even the humble currant that adorns Wednesday's roly poly pudding grew on the sunny slopes of Greece and each lump of sugar dropped into the cup brings with it a measure of tropic heat of the southern sun.

The increase in the population of the home is, in proportion, as far reaching in its effects as in the growth or dwindling of its people to the greatest nation. It sends forth emissaries to form fresh colonies, and, more often than not, it maintains a defensive force in the shape of a dog to guard it from the invasion of hostile intruders.

It may seem trivial, absurd, to draw such parallels between the home and the nation. But a deep truth underlies such fancies. And were the labors of housekeeping and the responsibility of family life looked at in the light of their true importance, the monotony and tedium with which, to some minds, they are invested would fall from them as the chrysalis husk falls from the gorgeous wings of the butterfly, permitting it to soar into the higher, brighter element for which it is fitted.

Cream Cake.

Beat the yolks of four eggs, to which has been added one even cup of powdered sugar for five minutes. Then add the whites, which have been beaten thoroughly, one cup of flour with one teaspoonful of baking powder, and lastly add one tablespoonful cold water. Filling: Two cups of milk into which has been beaten the yolks of two eggs, two tablespoonfuls cornstarch, one-half cup sugar, one teaspoonful vanilla. Bake cake in three layer tins.

Split Pea Soup.

Wash and soak a pint of peas over night, put on a beef bone to cook early in the morning; skim it carefully then add the soaked peas, and simmer at back of stove. They ought to cook soft in three hours; then add half a cup carrots cut fine and, if liked, a little minced onion. Another hour should finish it and give you a delicious and wholesome soup.

Crumb Cake.

One-half cupful of molasses, one-one-half cupful of cream, one-half cupful of milk, four eggs, yolks and whites beaten together, one cupful of sugar, three good cupfuls of crumbs, one teaspoonful of baking powder, cinnamon and cloves to taste.

"Dr. Miles' Nervine Completely Cured Our Little Boy of Fits."

A family can suffer no greater affliction than to have a child subject to fits or epilepsy. Many a father or mother would give their all to restore such a child to health.

"I am heartily glad to tell you of our little boy who was completely cured of fits. He commenced having them at 10 years of age and had them for four years. I tried three doctors and one specialist but all of them said he could not be cured, but Dr. Miles' Restorative Nervine and Dr. Miles' Nerve and Liver Pills made a complete cure. He is now hale, hearty and gay. It has been three years since he had the last spell. I shall give Dr. Miles' medicines praise wherever I go. You are at liberty to use this letter as you see fit and anyone writing to me I will gladly answer if they enclose stamp for reply."

F. M. ROGUE, Windfall, Ind.

Dr. Miles' Nervine is just what it is represented to be, a medicine compounded especially for nervous diseases, such as fits, spasms, St. Vitus' dance, convulsions and epilepsy. These diseases frequently lead to insanity or cause weak minds. Dr. Miles' Nervine has proven most effective in relieving these dreaded maladies.

Sold by all druggists. If the first bottle fails to benefit your money is returned. MILES MEDICAL CO., Elkhart, Ind.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of dyspepsia, heartburn, and indigestion as real diseases, yet they are symptoms only of a certain specific nerve sickness—nothing else.

It was this fact that first convinced Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone through the mucous and favor to Dr. Shoop's Restorative. With each original and highly vital principle, no such lasting accomplishment is ever to be had. For stomach distress, bloating, flatulency, indigestion, and all other ailments, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

Dr. Shoop's Restorative
